

One-Day Workshop on Realizing Sustainability – Role of Contract and Law in Indian Construction

January 31, 2024

About the workshop

Low carbon and lean construction research aims to develop and promote sustainable materials and practices in construction.

When research efforts culminate into the final industry-ready product (or process), the next task will be the implementation. In this workshop, experts will guide us to embrace sustainable practices in construction projects practically.

IC&SR Auditorium, IIT Madras

Themes and Speakers

- Implementing sustainable construction - experience sharing
Dr. K N Satyanarayana – Director, IIT Tirupati and Dr. SenthilKumar V.– Associate Professor, IIT Palakkad
(Discussion from technology implementation perspective)
- Are existing procurement practices supporting sustainable and lean construction practices? Is there anything more to be done? - A Public Sector Perspective
Mr. Nirmal Goel – CE, CPWD
- Are existing procurement practices supporting sustainable and lean construction practices? Is there anything more to be done? – A Private Sector Perspective
Mr. R Shankar Narayanan – Head, Corporate Centre, L&T Construction – B&F IC
- Facilitating sustainable and lean construction practices through public procurement- A Researcher's Perspective
Dr. Ashish Goel – Assistant Professor, IIM Sirmaur
- Sustainable cities and built environment - A Legal Perspective
Ms. Nidhi Batra – Founder, Sehreeti Developmental Practices
- Beyond Sustainability - Can lean construction practices help minimize construction disputes?
Dr. Venkata Santhosh Kumar Delhi – Associate Professor, IIT Bombay
- AI and Sustainability – Where are we and what is needed?
Dr. Murali Jagannathan – Assistant Professor, IIT Madras
- International perspective on implementing sustainable practices in construction projects
Dr. Johan Ninan, Assistant Professor, TU Delft, will join during the panel discussion

Panel discussion on
"Making Lean and Sustainable Construction Implementation Possible – A Push or a Pull Approach?"
Way forward for the Indian scenario
